## Free Standing Self-Serve Kiosk

You may have known Chatsworth Data as the company that has brought you reliable data capture products such as our ACP Optical Mark Reader line and our cSCAN image scanner products. Well now Chatsworth Data has taken it one step further.

Our newest product offering makes it easier to complete your solution for today's demanding self-serve kiosk environment. Our new kiosks are designed to handle the rigors of a player activated environment and be easily maintained with virtually no down-time.
